

Welcome to the GSF BRONZE level QOF Support

Below are the free resources, tools and videos from the GSF Centre available to help you improve end of life care in your practice, building on your previous QOF GSF level to make progress in the quality improvement of QOF 2019/20. These include support with:-

- Early identification of patients in the last year of life
- Engaging all staff (see GSF Nutshell and Frontrunners videos), resourcing and supporting team meetings
- Offering advance care planning discussions to all identified patients to ensure person-centered care using a simple 5 steps video

Please follow the links below:

1. Step by step guidance on how to use the free resources – [see guidance](#)
2. **Proactive Identification Guidance (PIG)**, evidence based and internationally recognised free guidance and suggestions for needs based coding guidance, supporting early identification of patients in last year of life
<http://www.goldstandardsframework.org.uk/PIG>
