

## Welcome to the GSF SILVER level QOF support

### The Silver Quality Improvement Programme – recognised certification level

The Silver programme includes 3 additional resources as well as those available at bronze level, to ensure you make the most of this opportunity to improve end of life care in your practice and can demonstrate QI changes. These include audits, a practical workbook with QI guidance, and a succinct easy-view teaching animated video that takes you through each step and ensures you and your team make real progress together. Do also refer to the free resources for bronze level.

#### Silver level GSF also includes :

##### 1) Audits demonstrating change

We at GSF have developed 3 Quality Improvement Retrospective Death Analysis (RAD) to support you in achieving the key aims of QOF 2019 and demonstrating QI activity i.e., *early identification of people in their last year of life, improved coordination and planning of care around their wishes and identification and support for families and carers*.

##### 2) QI Workbook and guidance. We have also developed a Quality improvement workbook acts as a guide for your staff on how to improve End Of life Care within your practice or practices

This includes

- 1) Practical guidance on early identification
- 2) Better coordination of care with care homes
- 3) Supporting families/care givers

##### 3) Videos

As well as the other 2 videos on the GSF website raising awareness in EOLC and sharing experiences of other frontrunning teams, we have also developed a new easy to view animated summary, an animated summary with QI templates and action plans leading to attainment of Silver certified certificate level

To register – complete the [Silver Registration Form](#) - Cost £395+VAT
