# The Gold Standards Framework

## Going for Gold Programme

### Supporting Care Providers to improve End of Life Care

**The Gold Standards Framework (GSF) Training** is a tried and tested evidence-based, quality improvement approach, used by thousands of teams, affecting the care of people in their last year of life in all settings.

**The GSF Going for Gold Programme** enables top quality care in the organisation (Care Home, Domiciliary Care Agency, Retirement Village) by providing a proactive, person-centred, systematic, organisational approach to care, leading to Accreditation and the GSF Quality Hallmark Award.

**The GSF Accreditation Quality Hallmark Award** is nationally recognised as a kite-mark for quality and recognised by the Care Quality Commission and co-badged by National Care Forum (NCF), Registered Nursing Homes Association (RNHA), National Care Association (NCA), Care England, The Associated Retirement Community Operators (ARCO) and other national organisations.
